D.O. No. Secy(MeitY)/NIC/2020
Dated: 19th October, 2020

Dear Chief Secretary,

Aarogya Setu app, implemented by NIC, has been powering India's fight against COVID-19 since its launch on 2nd April 2020. Aarogya Setu has now emerged as the most downloaded contact tracing App in the world, with more than 16 crore downloads..

2. For safe unlocking in the country, and to help the people, businesses, workplaces and the economy to return to normalcy, the 'Open API Service' has been introduced in Aarogya Setu.

3. The Open API Service of Aarogya Setu allows Government Departments and organizations to query the Aarogya Setu Application in real-time and get the health status of their employees or any other Aarogya Setu User/ visitor who has provided his/her consent for sharing their health status with the Government Department/organization. The Open API Service has already been availed by more than 90+ organizations and is currently being rolled out across central government Ministries.

4. Your State Departments and their offices can use the Aarogya Setu's Open API and leverage its benefits. For example, the Open API can be used to check the employee's Aarogya Setu health status on a regular basis before or while entering the office premises. As a precaution, an employee with high risk status (in Aarogya Setu App), may be requested to self-isolate or undertake other medical and administrative interventions as per Government guidelines, so as to safeguard other healthy employees.

5. The service is offered at no cost. The Open API Service can be availed by registering on the Open API Portal : <https://openapi.aarogyaasetu.gov.in>.

6. The National Informatics Centre team in your state can provide you with all possible assistance in the implementation of the Open API Service. Any technical queries related to the Open API Service, may be addressed to: openapi.aarogyaasetu@gov.in.

With regards,

Yours sincerely,

(Ajay Sawhney)
