*Dated 3-2-2016.*

Subject : Regarding supply of clean drinking water in Educational Institutions in the State.

Sir/Madam,

Many of the Govt. and Private educational institutions are opening after vacations. In view of the reports of jaundice from certain towns in the State, it is important that the water available in all schools/colleges is of good quality. To ensure this, please ensure that when the schools/colleges open, the water available in the water tanks should be totally drained and the water tanks thoroughly cleaned and only clean and fresh water be made available for drinking.

In addition, it should be ensured that water tanks are regularly cleaned and properly treated water fit for drinking is supplied. In addition, please ensure proper hygiene in the school/college premises.
