D.O. No. 34-2/2020 IS-16

27 July, 2020

Respected Ma'am/Sir,

This is regarding the Anti-Satellite (ASAT) Missile Test conducted by the Defense Research and Development Organization (DRDO) under Mission Shakti on 27th March, 2019. This Mission was one of the most complex technical challenges undertaken by DRDO in which missile launch had to be precisely timed to neutralize an orbiting satellite hundreds of kilometers away with pinpoint accuracy. With this feat, India has become fourth nation in select club of countries with ASAT capabilities.

2 It has been desired that this achievement of the country should be conveyed to youngsters and students in schools to make them understand the Mission and technological challenges faced in niche technology development. This will trigger an interest in niche sciences and technology areas.

3. Accordingly, DRDO has published a small booklet in Hindi and English and 15 minute video documentary in English and 11 other Indian languages for disseminating information on Mission Shakti: A Success Story of Anti-Satellite Missile, keeping in mind students in the age group of 7 to 14 years.

4 The booklet and the video documentary can be accessed at <https://www.drdo.gov.in/mission-shakti>. I hope that you will arrange to distribute the booklet to school children in your State/UT and also make arrangement to screen the video documentary in schools/online, which will help in motivating them.

Dej Singh (BDC-B)
31/8/20

With Regards,

Yours sincerely,

(Maneesh Garg)
