D.O. No 14-6/2020-IS-10

Respected Ma'am / Sir,

Please find enclosed a copy of D.O. letter dated 05.02.2020 from Secretary, Ministry of Health and Family Welfare regarding urgent need to create awareness among all the school children about preventive interventions such as frequent hand wash, respiratory etiquettes (using handkerchief over mouth while coughing/sneezing, use of tissue paper or using the sleeve of shirt covering upper arm, staying away from school when sick, avoiding public gatherings etc) to help in preventing/ reducing transmission of Novel Coronavirus disease. A copy of information pamphlet listing out preventive measures is also enclosed.

2. I shall be grateful if you could take necessary steps for creating awareness amongst school children about these simple public health measures that will go a long way in preventing spread of the Novel Coronavirus disease, and other communicable diseases.

With Regards,

Yours sincerely,

D.O.No. Secy(HFW)/IMP/Coronavirus/2020

Dated : 5th February, 2020

Dear *Amit,*

You may be aware of the Novel Coronavirus reported from China and 24 other countries, 3 travel related case in India. Though much is not known about the disease dynamics, it is evident that there is human to human transmission. As of now, there is no drug or vaccine available to manage this disease. Hence preventive measures become crucial to stop spread of this disease.

Creating awareness among school children about preventive interventions such as frequent hand wash, respiratory etiquettes (using handkerchief over mouth while coughing/ sneezing, use of tissue paper or using the sleeve of shirt covering upper arm, staying away from school when sick, avoiding public gatherings etc) will help in preventing/ reducing transmission of not only this disease, but also large number of other communicable diseases, notably flu like illnesses. Further, such informed children can be agents of change for their family, community and beyond.

In view of the above, you are requested to take up with State Education Departments, Directorates of Education, Kendriya Vidhyalaya Sangathan, Navodaya Vidyalaya Samiti and other autonomous institutions under your ministry to teach children these simple public health measures that will go a long way in preventing spread of Novel Coronavirus disease. An information pamphlet is enclosed which would come handy for the teachers to sensitize children.

been yours
Yours sincerely,

Preeti Sudan
